

PCB-Investigator

Product features Basic V 3.4.4

ODB++ 7.0 Import/Export
 GenCad 1.4 Import/Export
 IPC 2581 Import
 Gerber274x Import/Export
 Sieb & Mayer Import
 Excellon 1/2 Import
 DXF Import/Export
 DWG, DWT, CGM, RTL, SPL, PM, HPGL, HPGL2 Import
 IPC356 A Export
 Image (BMP,PNG,JPG) Export
 Image (BMP,PNG,JPG) Layer in background
 3D Sketchup Export for Components and Board
 Automation Scripting Interface C#, VB.Net
 Advanced Printing
 Component Manager with ASCII CSV, TXT Export
 BOM Export
 Pick & Place Export
 Net Generator for Gerber274x Data
 Panel Builder
 Symbol Edit
 Area Calculation
 Color Assignment for all features
 Attribute Histogram for all layers
 CAD Net Selection
 Shape Net Selection
 Layer Matrix Manager
 Full Featured Measure Concept
 Full Edit function Add, Remove, Transform
 Mask generation Oversize/Undersize
 Drawn to Polygon
 Auto feature description (Info Layer)
 Fast View Control
 View State Manager including Notes
 Advances Search Options
 Color Group Manager
 Plug-In Manager
